

Quicklink TX Multi

Powered by 

Up to 4 Skype calls, 1 SDI Input & Output

The Quicklink TX Multi gives you all the tools you need to easily control, adjust and preview multiple HD Skype calls in your workflow. This unit is simple to integrate with an array of connections including SDI, HDMI, Component, S-Video, Composite, AES/EBU and Analog inputs/outputs.

Product Highlights

- ▶ Easily manage multiple Skype calls
- ▶ Studio-grade SDI, HDMI I/O
- ▶ Analog & AES/EBU Audio
- ▶ Supports Dante/Livewire+ AES67 Audio over IP and NDI™ Video over IP I/O
- ▶ Call Recording & Colour Correction
- ▶ Switchable IFB Return Audio
- ▶ Free geo-paging Contributor App
- ▶ Customisable tally/information graphic overlay
- ▶ Free complimentary technical information via the Customer Portal
- ▶ Quiet Running

The Quicklink TX Multi allows you to:

- ▶ Create high quality, low latency, two way broadcast-ready HD Skype video content
- ▶ Easily scale the solution by adding additional units
- ▶ Simplify existing workflows using this all-in-one, plug and play solution
- ▶ Access 300 million Skype users for inclusion for remote interviews within live broadcasts, TV game shows, worship events or large managed corporate events

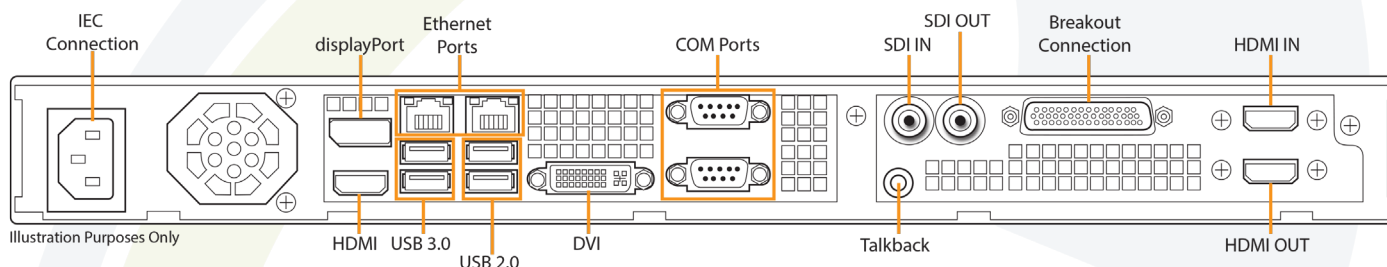

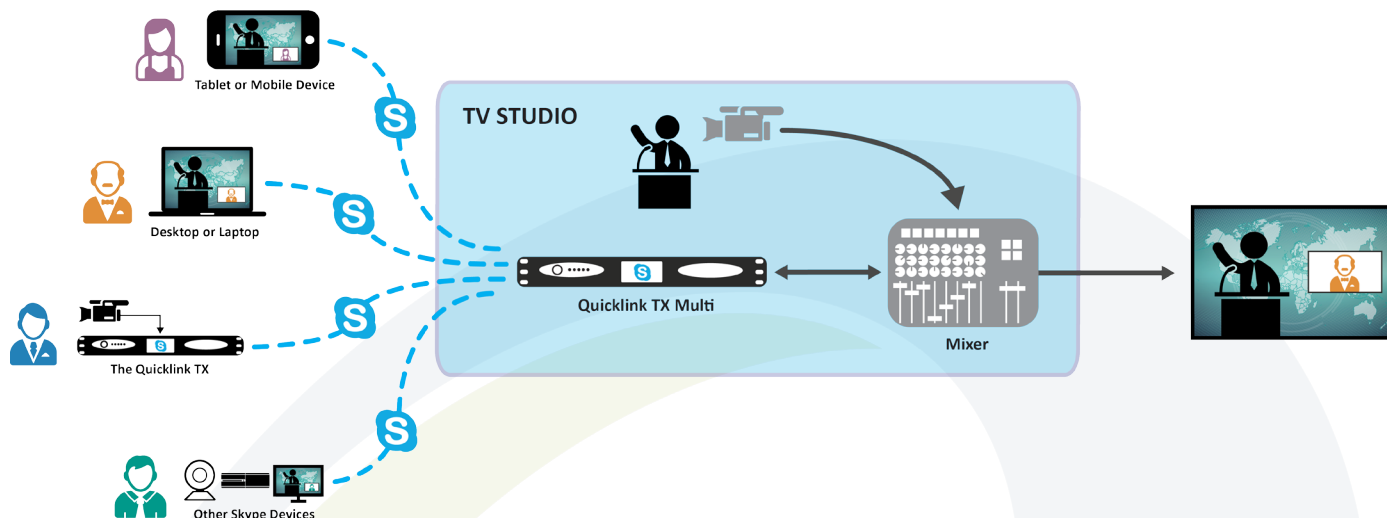

“The Quicklink TX enables us to be more creative in our approach to producing innovative video content.”

Rhodri James, Gorilla Technical Director
